

SMARTVIEW™

Network Monitoring Suite

Gain insight to your network status in real-time so you can optimize network performance.

ENHANCED FEATURES

Intelligent Interface

- Flexible charting, “hover-overs” and pop-ups load scores of data to one screen without distracting clutter. Intuitive and easy to use controls and navigation get you where you want to go effortlessly.

Real-Time Diagnostics

- Powerful reporting allows users to dive deep Granular-level data supports and streamlines troubleshooting, traffic forensics and network planning.

Key Performance Indicators

- A network dashboard displays the crucial data network administrators look for including hardware health, bandwidth utilization, network reliability and more.

Smart Alerts

- Optional proactive monitoring agent pushes business rule-based Smart Alerts to email or text so you can react in real-time.

POWER GREAT DECISIONS

Optimize your network. Easily identify usage trends and tailor your network policies accordingly. No guessing about network planning. Your needs are clearly defined so you can invest wisely.

HIGH VALUE

A minimal monthly fee gives you access to a robust set of features without the high capital expense.

MOBILE FRIENDLY

A great mobile interface gives you full access to performance data – anywhere and anytime. Gives you both a real-time snapshot and historical record of your network status.

EXECUTIVE SUMMARY

Network performance is summed up in a single dashboard that doesn't require interpretation from IT staff.

RELIABILITY

Key performance indicators verify that your network is working the way you expect, ensuring operational continuity.

Smarter Communications That's Reliable and Provides Savings

TRUSTED, RELIABLE AND SECURE

Unlike other providers, Grid4 is a telecommunications carrier and a Managed IT services provider, this ensures your organization receives competitive calling plans as well as industry leading technical services - all from one source.

- Grid4 is a Microsoft Certified Partner which provides customers with the expertise and comfort of knowing trusted, local support is immediately available.

AGILE, STREAMLINED DEPLOYMENT

The Grid4 implementation team provides the necessary tools and training to increase business productivity quickly. Our teams work with your schedule to ensure success.

Grid4 Business Solutions

Cloud Phone System

A future-proof alternative to on-premise phone systems. Grid4 has been delivering cloud phone system solutions to businesses since 2007. Communicate smarter with more ease and flexibility, maximizing productivity and performance.
